

A tip how to make an easy toy. We have made three pieces (horses) in this way:

1. At first we have to think out a shape of toy which we want to make and we prepare a template from paper.
2. We will copy the template on piece of cloth and cut 2 pieces.
3. We will sew both pieces together and leave a small hole for filling.
4. We will put cotton wool inside and fill in the cloth as much as we want.
5. Then we will sew up the last hole.
6. We can finish the toy with some details- sew on buttons as eyes, knit a tail and mane from wool threads and sew them on. We can also embroider a saddle.
7. And then our toy is finished. It can make somebody happy.

aids: cloth, some filling(eg. cotton wool), thread, idle, scissors, wool threads, chalk, pen, buttons
